Dear Mr. VanRheenen,

EPA appreciates your willingness to allow Amphenol Corp. and its consultant, IWM Consulting Group, access to the 400 North Forsythe St, Franklin IN property for environmental media sampling.

Please see the attached February 12, 2019 access request letter for information that should answer your questions. In the letter, access was requested for late Feb and early March.

Please note that the new requested sampling dates will correspond with the second round of sampling to occur along the sewer lines on North Forsythe Street, likely some time in April.

Mr. Brad Gentry of IWM should be your primary contact. Also, please feel free to contact me with any concerns or remaining questions.

Bradley E. Gentry, LPG
 Vice President/Brownfield Coordinator

 Indianapolis, IN 46214
 Mobile: (317) 435-8877
 Office: (317) 968-9256
 Fax: (317) 347-9326

Again, we appreciate your cooperation.

Many thanks,
 Carolyn

Good morning, all.

Can someone forward me the access request letters and the proposed scope of work for which access is being requested, including a figure that identifies proposed boring locations?

Best regards,

Richard S. VanRheenen, Director

Hello Carolyn,

I had Lisa McCoy our IDEM attorney for this Site call Curt DeVoe the attorney representing the current owners of the 400 Forsythe Property. They received your access letter but since it was through IWM and Amphenol, they did not realize that it was at the request of the EPA. However, they are willing to grant access. Since the initial work completed on this property was completed by the former owner now Borg Warner and their attorney Richard VanRheenen, they would like to be included in the conversation regarding access. I have copied Curt DeVoe, Richard VanRheenen and Lisa McCoy on this email so that you will have their information. I think it would be best for you and Brad to work with them to get access for the sampling.

Sincerely,
 Haley

Subject: Amphenol: Access for 400 N. Forsythe

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. **** _____ Hi Haley,

Ryan Clemme reminded us that if Amphenol had problems accessing the 400 N Forsythe property for installing well points (temporary wells), then you would contact the company for the permission.

Amphenol/IWM sent two letter requests but had no response (Brad Gentry from IWM is copied on this email).

Would you please see what you can do about getting permission to install some well points and sample the existing wells on the property?

Much appreciated.

Carolyn
